

TIMS MVP FOR FEES

WHY TIMS MVP

COMPATIBILITY

TIMS MVP is compatible with any FEES scope, including traditional endo stacks, USB plug-and-play, and single-use scopes including Ambu, Atmos, JedMed, Karl Storz, Olympus, Optim, PatCom, Pentax, and all others!

SUPERIOR WORKFLOW

Record studies bedside or in-suite and send to TIMS Review to maximize equipment use. Review, edit, and assess with FEES-specific scoring, notes, and snapshots. As the analysis is completed, information is automatically pulled forward into the report - reducing documentation time.

IMPROVED COLLABORATION

TIMS MVP for FEES integrates with PACS/VNA and EMR systems, improving interdisciplinary collaboration and patient access to dysphagia records. TIMS MVP eliminates the need for removable media - improving PHI security.

TIMS REVIEW WORKFLOW

Record the FEES and transfer it to TIMS Review, allowing the equipment to be used for another evaluation.

1

Complete study analysis, video edits, and reporting. Integrate your report into your EMR and send your study to PACS/VNA.

2

Increase collaboration and improve team access to information by archiving your studies to PACS/VNA.

3

INNOVATIVE SOLUTIONS

TIMS Review allows studies to be edited and reviewed in your office instead of at your FEES cart, increasing efficiency and enabling more studies per day. The feature-rich toolset provides healthcare professionals with everything they need to make an accurate diagnosis and develop individualized care plans.

ADVANCED FEATURES

Innovative tools allow clinicians to automatically detect swallow occurrences, complete analysis with standardized scorecards, highlight pertinent information with telestrations, create series notes, and more.

CUSTOMIZED REPORTING

Analysis and reporting are consolidated with notes, telestrations, snapshots, and scorecards. As you analyze, TIMS Review pulls together the information in report templates customized to meet your needs.

STREAMLINED WORKFLOW, ENHANCED CARE

By sending studies directly to TIMS Review, you free up equipment for more evaluations, while continuing with analysis and reporting at your convenience. Archiving studies to the enterprise encourages collaboration and improves patient access to their records.

*IT'S AS EASY AS
1 - 2 - 3!*
