

VIOMERSE™

The Leaders in Immersive Training

OB/GYN Pelvic Trainer

The VIOMERSE Gynecology Pelvic Phantom is a durable hydrogel phantom ideal for hands-on training of a variety of gynecological procedures. The phantom's realistic texture and mechanics make it ideal for teaching everything from basic procedures (speculum placement and Pap smear) to more advanced therapies and procedures like hysteroscopy, endometrial ablation, and HDR brachytherapy. The phantom is contained within a durable plastic case to facilitate re-use.

Realistic Anatomy:

- **Vaginal Vault**
- **Cervix**
- **Uterus**
- **Bladder**
- **Pelvic Bone**
- **Rectum**

Training Procedures:

- **Speculum Placement**
- **Hysteroscopy**
- **Endometrial Ablation**
- **Interstitial Needle Placement**
- **Tandem & Ovoid**
- **Tandem & Ring**
- **HDR Brachytherapy**
